About Us

Sandhu door closers, are one of the prominent Manufacture traders, suppliers and distributors of a wide assortment of Door Closers Products and Accessories. The range of our product is widely appreciated for dimensional accuracy, durable finish, smooth edges, sturdy design and resistance to abrasion as well as corrosion.

Adherence to timely delivery schedules and a wide market network assist us in the delivering the consignments to the desired destinations well on time. We have a reliable logistics team working round the clock to look after the delivery process and further maintaining the safety conditions of the entire product range.

We have huge warehousing facility fully equipped with the latest technology to procure and store our products. Also, we are committed to improve upon the existing standards of our products. Furthermore these attributes of ours and our ethical business policy, quality product, timely delivery and competitive price have helped us in forming a huge clientèle.

Automatic Sliding Sensor Door

Symbol of Quality

Smooth and Silent

It moves silently with use of DC brush-less motor and moves smoothly due to highly precise design.

Power Saving

High efficient circuit is designed in order to save electricity.

DC Brush-less Motor

DC brush -less motor benefit with high rotational speed, low electric consumption & protection from overloading. More advantages are rapid response, potential torque, plus linear variation of voltage.

Multi Function Controller

It's a micro processor controller with LED display. It has multi function that you can set according to you needs. The self-learning microprocessor control ensures reliable operation keeps the motion cycles harmonized and satisfies high safety requirements.

User Friendly

Due to it user friendly module, it's easily adaptable to individual requirement.
